Operating from a worldwide network of offices, Braemar (Incorporating The Salvage Association) provides unrivalled capability to support global marine and offshore operations.

Surveys and Audits:

- Hull & Machinery Damage Surveys;
- Hull & Machinery Condition Surveys JH2006 10A, B & C
- Loss Prevention Condition Surveys;
- Risk Assessment Surveys (Joint Hull & P&I);
- Ship Repair Costs / Advice;
- On / Off hire Surveys
- Newbuild Construction Surveys;
- Dry, Liquid and Perishable Cargo Damage Surveys;
- Shipyard Management Audits;
- Superyacht, Leisure and Specialist Craft Surveys;
- ISM Audits;
- Pre-purchase Surveys;
- Sea Trials Verification.

Marine Casualty Investigations:

- Special Casualty Representative
- Salvage Operations and Wreck Removal (Acting as SCR);
- Collisions, Groundings and Fixed Object Damages;
- Dry, Liquid and Perishable Cargo Damages and Cargo Recovery;
- Hull and Machinery Damages;
- Pollution Advice / Management and Post Casualty Clean-up;
- Technical Investigation and Forensic Analysis;
- Expert Reports and Evidence.

Marine Warranty Surveys & Risk Management:

- Fixed and Floating Offshore Platforms;
- Mobile Offshore Drilling Units;
- Towage Approvals;
- Cargo Load-out, Stowage, Securing and Discharge;
- Shipyard Risk and Project Surveys (JH143);
- Mooring Approvals and Analysis.

Claims, Disputes & Litigation:

- Salvage and Wreck Removal;
- Bunkers and Liquid Bulk Cargo Disputes;
- Ship Performance, Charter-party and Unsafe Port Disputes;
- Collisions, Groundings and Fixed Object Damages;

- General Average Assessment;
- Pollution Claims;
- Personal Injury Investigations;
- Cargo Damage and Worthiness;
- Sea Worthiness;
- Hull and Machinery Damages;
- Newbuild, Conversions and Repair.

Marine Salvage Support Services:

- Provision of Special Casualty Representatives (SCR's);
- Processing of Recovered and Distressed Cargo;
- Naval Architects to Support Salvors;
- Naval Architecture Assessment for Wreck Removal;
- Project Management of Third Party Contractors (Including audit of systems and accounts);
- Expert Witness Advice and Review of Claims;

Ports & Harbours:

- Marine risk (HAZIDs, QRA of collisions, groundings, anchor strikes etc);
- Cost Benefit Studies;
- Proprietary software BRAEVURA (BRAEmar Vessel Utilisation and Risk Analysis);
- Port capacity studies and operational simulation;
- Advice on Aids to Navigation and VTS;
- Quasi-static and dynamic mooring analysis, passing vessel analysis;
- Berth compatibility studies;
- Fast time, real time and full mission manoeuvring studies;
- Channel and turning circle design;
- Pilot training services;
- Dock damage and unsafe berth cases.

Yacht Services:

- Marine Casualty Investigations and Expert Witness
- Groundings, Collisions, Contact Damage;
- Rigging Failure;
- Fire & Flooding;
- Machinery Damage;
- Sale, Purchase and New Build Disputes.
- Pre-purchase Surveys including Sea Trials and Valuations;
- Periodical Condition Surveys;
- Stability Surveys;
- Damage Surveys including H&M and P&I;
- Risk Assessment including Yacht Shipyard Surveys: JH 143;
- Marine Warranty Surveys including Load-in/outs.
- Yacht Projects Management and Technical Due Diligence For Yacht Owners and Investors.

(1st class unlimited combined). MSc Cardiff Business School (International Transport), Associate Member of The Association of Average Adjusters (UK), SIRCA Certified ISO 9001:2008 Lead Auditor. Superintendent engineer on LPG's, product tankers, bulk carriers and reefer vessels. Field Engineer Surveyor previously based at Piraeus office. Sea-going service from cadet to Chief Engineer, Served on VLCC, bulk carriers, cruise and Ro-Ro ferries steam & motor plant.

David Nash
Senior Staff Surveyor
Master Mariner

Mobile: +1 713 560 5708
Email: david.nash@braemar.com

Sailed as Master for several years on a variety of vessels, including LNG tankers and DP/Semi-Submersible drilling rigs. He later progressed his career shore side, working as Port Captain/Superintendent. In this position he had a number of ship management responsibilities including compliance with international regulation, HSEQ matters and personnel. David then took up a position with a well known marine consultancy firm, where he specialised in offshore surveying (including DP vessel surveys), project cargo surveying and marine warranty surveys. David is also a qualified OVID inspector.

Patrick Mac Donald
Senior Staff Surveyor
Marine Engineer

Mobile: +1 832 331 9510
Email: patrick.macdonald@braemar.com

Patrick has twenty eight years seagoing experience on most types of vessels primarily with Safmarine. Holds a 1st Class certificate of competency. A further 14 years ashore as Port Engineer, Dry-docking Superintendent and Fleet operations manager; DNV Petroleum Services – fuel analysis laboratory: more recently he worked for BP as Engineering Superintendent in charge of different types of tankers and was involved with SIRE inspections and auditing.

P+I Condition, collision/allision/cargoes – bulk- Liquid-gas-reefer-gas pressure damages-unsafe ports-ice damage-vessel salvage shore recovery and pollution management-aqis approved inspections-legal consultancy, expert witness, public inquiry – high court – crown court – arbitration and forensic investigations. MNI & ICHCA member.

Jeff Wilson

Director, Marine Consulting (EU)
Master Mariner

Mobile: +44 (0)777 133 2098
Email: jeff.wilson@braemar.com

With a Class 1 Certificate of Competency and an MSc in Strategy & Resource Management Jeff has 28 years experience in oil tanker and gas carrier management, consulting and operations with extensive experience as a DPA, superintendent and Fleet Manager. An ISM specialist, Jeff has direct experience of driving operational improvements via the use of management systems. Has acted in collision and grounding disputes for H&M Underwriters and Brokers and undertaken post-casualty work for PI Interests. He has also provided expert opinion for Solicitors in contentious marine matters. He also undertakes marine warranty work and the provision of bespoke marine project consulting. Jeff is a member of MIMarEST, an Associate Fellow of the Nautical Institute and is a Chartered Marine Technologist.

London, United Kingdom (GMT) cont'd...

Tim Lewis

Director, Ports & Harbours

Mobile: +44 (0)7920 339 860

Email: tim.lewis@braemar.com

Tim is a marine civil engineer and has spent many years in a similarly senior position with another leading marine consultancy. Tim's area of specialism is with regard to investigating and providing expert opinion on fixed and floating object damage incidents and on unsafe berth cases, working on instruction from P&I Clubs, insurers and lawyers. In his role Tim is responsible for developing the Ports & Harbours business world-wide.

Sanjeev Reddy

Technical Manager

Ports & Harbours

Mobile: +44 (0)7920 339 866

Email: sanjeev.reddy@braemar.com

Sanjeev is a chartered naval architect and has experience at sea on gas carriers. For 10 years Sanjeev worked with Eagle Lyon Pope (ELP) where he developed sophisticated software to undertake operational simulation of vessel traffic (e.g. examining issues such as port capacity and berth utilisation), the analysis of AIS data and the recreation of marine incidents using 3D animations. Sanjeev specialises in vessel moorings and motions analysis and in marine risk analysis, assessing frequencies of incidents such as collisions, groundings, allisions.

Stefano Scarpa

Head of Braemar Yacht Services

Naval Architect

Mobile: +44 (0)7894 521 202

Email: stefano.scarpa@braemar.com

Maritime and superyacht professional with more than 15 years experience in design, naval architecture consulting and project management, complemented by technical and business qualifications (CEng and MBA). His expertise includes concept design, hydrodynamics, motion analysis, model testing, intact and damage stability, yacht new build process and yacht prepurchase survey. He is a member of the Royal Institution of Naval Architects and the Society of Naval Architects and Marine Engineers. Fluent in Italian and Spanish.

A member of Braemar's Yacht team (BYS).

Shaun Dillon

Marine Engineer

Mobile: +44 (0)7711 489 245

Email: shaun.dillon@braemar.com

Holds a Class 1 Certificate of Competency with more than 15 years seagoing experience on a variety of vessels and has been Superintendent for a fleet of fast ferries. Prior to commencing a career as a marine surveyor he worked as Technical Manager for a marine engineering & ship repair company. Shaun has several years experience as a surveyor having conducted a wide range of surveys together with H&M work for London Underwriters.

London, United Kingdom (GMT) cont'd...

Oliver Batt

Marine Consultant (Electrical & Instrumentation)

Mobile: +44 (0)7748 982 536

Email: oliver.batt@braemar.com

Oliver spent six years as an Electrical Superintendent supporting 15 LNG ships with Mitsui OSK Europe. Prior to joining Mitsui he spent 10 years as an ETO on various passenger vessels. His specialities include generation plant, Azipod drives, electric propulsion systems, variable frequency drives, switchboards and transformers. He has managed the retro fitting of integrated automation systems (IAS), electrical distribution systems and navigation systems to various vessels on major overhaul and life extension programs. His experience also extends to communication and hotel automation systems gained from working on a variety of vessels at shipyards and facilities in Europe, Asia and America. He has attended major switchgear, switchboard and propulsion transformer casualties, reporting on behalf of various stakeholders and also has experience of investigations into ships cable early life failures. **Oliver is also a member of Braemar's Yacht team (BYS).**

Graham Ayers

Marine Engineer

Mobile: +44 (0)7801 015 120

Email: graham.ayers@braemar.com

Previously worked for another leading surveying firm where he was Senior Engineer Surveyor for three years. Graham has worked predominately as a Marine Casualty Investigator carrying out H&M work for London Underwriters. Prior to surveying, Graham was at sea for over 20 years. He was General Manager with a ship repair company, Technical Manager of a ferry company and Chief Engineer at Dover Harbour Board.

Nathan Mills

Master Mariner

Mobile: +44 (0)7920 339 869

Email: nathan.mills@braemar.com

Nathan is a Master Mariner with command experience and has 24 years' experience of vessel operations, management and consulting. He is a consultant working in Braemar's London team and his cargo specialisms include RoRo, containers, chemicals and dry cargo. He has extensive other experience in the large ship passenger sector, particularly in compliance. Prior to gaining command experience Nathan acted as a vessel operator for a chemical tanker manager and also spent three years as a consultant acting for Clubs as their expert in cargo damage claims, providing expert opinion on damage to bulk cargoes, containerised cargo and break bulk general cargo. Nathan is a qualified 9001 Lead Auditor and his key skills are: risk assessments, ISM & Management Systems, root cause analysis techniques and technical incident investigation. He is member of the Nautical Institute and Chartered Quality Institute.

Paul Saunders

Marine Engineer

Mobile: +44 (0)7557 018 954

Email: paul.saunders@braemar.com

Paul has a Chief Engineer Certificate of Competency. H&M damage & investigations, groundings/collisions, machinery/structural damage, pre-purchase inspections, condition surveys, on/off hire, P&I cargo claim surveys. Expert witness and has provided written and oral evidence to the high court of justice. Sea service on Diesel and Diesel electric propulsion up to Chief Engineer. 16 years' experience as Superintendent with dry cargo and offshore / research vessels, numerous dry docking, repair and major conversion project experience.

London, United Kingdom (GMT) cont'd...

Gerry Williams
Marine Engineer

Mobile: +44 (0)7738 041 073
Email: gerry.williams@braemar.com

Holds a 1st Class Certificate of Competency, a Member of Institute of Marine Engineering Science & Technology and also has a Diploma in Occupational Health and Safety and a Specialist Diploma in Environmental Management. 44 years experience in the shipping industry including 30 years ashore in various management roles as a superintendent, technical manager, group safety and environmental executive and 13 years as a surveyor. Gerry has been involved in most types of casualty and warranty surveys and a number of salvage operations, two of which were due to terrorist bombs. He has particular experience in risk assessments of shore and ship managements. Involved in a number of Asbestos Cases as an Expert Witness for P&I Clubs.
